

QUIK-LOQ™

Rapid Latching I/O Systems

NorComp QUIK-LOQ™ Circular Push Pulls deliver a compact high performance solution engineered to withstand shock and high vibration both indoors and outdoors in harsh environments. These rugged, sealed connectors are ideal for hi-rel waterproof applications where quick connect / disconnect and environmental protection are required.

FEATURES & BENEFITS

- Push-Pull Latch and Release Mechanism
- Small, rugged precision design
- Available in varying pin positions
- Accepts 14-28 awg wires (based on # of positions)
- Rated for 2 to 30 amps depending on # of positions
- High Mating Cycles (>5000)
- Machined contacts and housing
- 360 degree shielding for full EMI / RFI
