

VULCONTM

Future of Circular Connector Technology

VULCONTM Circular Connectors offer a robust waterproof cable to panel interface for demanding end-use applications. Available in 12mm, 8mm, and 5mm diameters, these connectors offer a wide range of solutions for the most demanding design environments. Both the 12mm and 8mm product offerings conform to industry-standard Bus specifications and are intermatable with a wide variety of competitive products.

FEATURES & BENEFITS

- Available in 3 sizes | 12mm, 8mm, & 5mm diameters
- Available in pin counts ranging from 2 to 12 positions
- IP67/IP68 Performance in both mated / unmated conditions
- Solder Cup, Vertical, & Right Angle board mount options
- Cable mount available loose piece or as pre-made cables
- Up to 5 AMP contact rating / -40°C to +85°C
- Full metal shells for EMI/RFI shielding
- A, B, D X & L Codes now available
